O R D E R

On September 9, 1987, AT&T Communications filed a tariff with the Public Service Commission proposing two new services.

AT&T PRO Kentucky is an intrastate toll usage plan which provides a discount on all direct dial station-to-station calls for a fixed monthly charge. Messages subject to the evening and night/weekend rates will receive standard rate period discounts in addition to the plan discount.

Reach Out Kentucky is furnished for customer-dialed, station-to-station Intrastate AT&T Long Distance Service calls in the State of Kentucky, during the hours when evening and night/weekend discounts apply to AT&T Long Distance Service.

The filing also proposed to make AT&T's two currently effective Optional Calling Plans obsolete. These plans are One-Way Measured Point-to-Point Calling and One-Way Measured Extended Community Calling.

The Commission is of the opinion and finds that further investigation and possible hearing will be necessary to determine the reasonableness of the proposed tariff. However, investigation

and possible hearing cannot be completed prior to the proposed effective date.

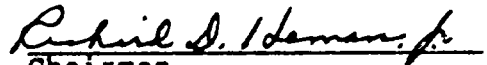

IT IS THEREFORE ORDERED that the proposed tariff be and it hereby is suspended for 5 months from the proposed effective date of October 9, 1987. The pages of the tariff hereby suspended are:
